The coroner's jury investigating the death of Mrs. Samuel Dixon rendered a verdict of death by a dose of poison administered by her own hand with suicidal intent. The evidence was similar to that already published.

Briefs.

Joseph Murphy and William Moore were arraigned on the charge of burglary. Their preliminary hearing was fixed for Wednesday, April 22nd. They are accused of having burglarized the jewelry store of John A. Beller.

The funeral of Clarence J. Stone took place Thursday afternoon. The body was buried in the city cemetery. It is feared that much damage has been done to stock and fruit by the snowstorm. Mrs. E. A. Larkin has gone to Philadelphia on a visit.

MARSHAL WAS ARRESTED
AT HIS OWN REQUEST

Special to The Tribune.
MT. PLEASANT, Utah, April 21.—H. C. Jensen and Chris Jensen of Fairview, against whom there seems to be sufficient evidence to convict them of the burglary that was committed some days ago, were taken to Mant to jail. H. C. Jensen claimed the next day after the crime to know positively who did it, but he told several conflicting stories, and the next day left town. He was arrested at Mercer and brought back. The Barkers, who were first arrested, could not be connected with the crime, and were released. The City Marshal was also arrested, but subsequent developments show that it was at his own request and for the purpose of endeavoring to get some kind of an admission from the Barkers. He was also released as there was nothing to show him to have been in any way connected with the crime.

MT. PLEASANT, Utah, April 21.—The roof of the residence of George Madison was almost destroyed by fire, and the furniture was badly damaged by water. The fire caught in the roof and supposed to have been from a defective flue. Loss about \$1000, with no insurance.

THREE TUNNEL WORKMEN
HAVE NARROW ESCAPE

Special to The Tribune.
PARK CITY, Utah, April 21.—The cave-in in the Ontario drain tunnel which put the city in darkness Wednesday morning by shutting off the water from the Ontario power-house, forced the water back in the tunnel to such an extent that George Muir and two other men, who went in to clean the tunnel, were nearly drowned by the dirt suddenly giving way. Drenched to the skin these men were required to come a distance of five miles for dry clothing.

City Council has disposed of the old smelter bill. The bill has been the cause of contention between the city and county for nearly two years. It was settled by the city paying \$25,000.

The Fire Chief has reported that the theaters and hotels of the city are rapidly complying with the ordinance in respect to fire-escapes. He also recommended the purchase of the Marsac tank to increase the city's fire protection. Clarence Carty has returned from Northwestern university, where he has been studying pharmacy. Mrs. C. M. Wilson and Miss Genevieve Wilson are spending a few days at Salt Lake.

ARSON CONSPIRACY
CALLED "WOOD CONTRACT"

Special to The Tribune.
PROVO, April 21.—The case of the State vs. Alex. Jennings, charged with arson, was called today. The defendant is charged with burning the Lehi creamery last November. J. E. Cotton, who was running the creamery under lease, Frank Wilson, J. H. Hollaman and Alex. Jennings were arrested for the crime. Cotton was discharged at the preliminary hearing. Wilson and Hollaman pleaded guilty to the charge and will be sentenced Saturday next.

Mrs. Albert Snyder of American Fork testified that Hollaman boarded at her place and she read and wrote his letters to and from Jennings. The letters from Jennings stated that he would pay Hollaman some money just as soon as he received some from the "wood contract."

Hollaman and Wilson testified that it was agreed with Jennings that the creamery was in their correspondence should be referred to as the "wood contract."

In one of the letters Hollaman threatened Jennings, saying if he was not paid some money he would tell the officers everything. All the letters received by Hollaman were destroyed.

Mrs. Snyder testified that no letter was kept by her and refused to say whether or not the writing was her husband's.

Miss Rose Birch, an employee of the American Fork postoffice, testified that Hollaman received letters which came on the San Pedro railroad from the south.

The hearing will be continued tomorrow.
